

## PROJECT DESIGN PHASE I

### SOLUTION ARCHITECTURE

Date	17 October 2022
Team ID	PNT2022TMID13791
Project Name	Smart lender Applicant credibility for loan approval
Maximum marks	4 Marks

#### ***SOLUTION ARCHITECTURE:***

The dataset is obtained by gathering a lot of required datasets and combining them to produce a generalised dataset. The dataset thus produced is pre-processed i.e The dataset is cleaned before doing data visualisation.

- Defines features , development phases and solution requirements.
- Find the best tech solution to solve existing business problems
